## **Bicycle Theft**

How do you keep a bike from being stolen?

- Never leave your bicycle unattended without securing it first to bike racks or secure rails or poles.
- Utilize high security locks instead of inexpensive cables and chains, which can be easily defeated.
- Report to law enforcement any persons you witness loitering near areas where bikes are parked.
- Lock your bicycle in visible and well lighted area.
- Obtain a license from your local municipality in which you permanently reside and engrave your bike with an electric engraver.

Write down the bicycle serial number and keep it someplace safe.
